

Young investigator session NNFM Hurtigruta

Invite a young investigator to the NNFM meeting at Hurtigruta!

In total six young researchers from the member countries will get the opportunity to present their research in the Young investigator session.

The selected young investigators will get a discount of 2300,- NOK on the price of the cabin.

What is a young investigator? A young investigator is a researcher in the field of fetal, genetic or perinatal research who is a PhD student or within 5 years of PhD graduation.

The investigators will get each 10 minutes to present their research (8 +2 minutes for discussion).

Abstract should include the following:

Title with authors and affiliations, background, method, results and conclusion.

Word limit 400.

Send abstract no later than 1st of January 2019 to

Cathrine.Ebbing@helse-bergen.no

Good Luck!
